Article 1

This Article states the principal amendments to the Remuneration Policy for the Members of the Supervisory Board of NLB d.d. and the Members of the Management Board of NLB d.d. (hereinafter: the Remuneration Policy or the Policy) in chronological order:

The significant changes of the second version compared to the first version of the Remuneration Policy were the following:

- the stakeholders' (Management Board, Remuneration Committee, Risk Committee, Supervisory Board, General Meeting, Compliance and Integrity, Internal Audit) roles in the process of adopting and supervising the implementation of the Remuneration Policy have been defined in further detail; in the process of awarding guaranteed variable remuneration, retention bonus and variable part of salary;
- the Policy defines in more detail the components of the fixed and variable parts of the remuneration of the Management Board members with predefined maximum values of individual remuneration;
- the possibility of covering or reimbursing the difference in tax liabilities of the new Management Board member arising from his/her income, received in the past, in case he/she becomes a Slovenian tax resident - the purpose of this is the Bank's ability to cover the difference in tax liabilities of the new member of the Management Board arising from his/her income, received in the past, as a result of him/her acquiring the status of Slovenian tax resident;
- the possibility of granting a personnel housing loan to a Management Board member under the same conditions as apply to key personnel under the collective agreement;
- the maximum permitted amount of the gross monthly salary of a member of the Management Board is determined in relation to the average gross monthly salary of a member of senior management of NLB d.d.;
- the maximum amount of the variable part of the salary (performance bonus) of a Management Board member for an individual business year has increased to 9 salaries for the period from 01/01/2023 onwards;
- the guaranteed variable remuneration is more clearly defined, together with the maximum possible amount;
- a new definition of the possibility of retention bonus;
- an explanation has been included about how the award and payment of a part of variable remuneration in the form of the Bank's shares or instruments the value of which is linked to the value of the Bank's share contributes to the Bank's long-term development;
- the goals of the Management Board members are specified in more detail by area;
- the provision of the policy relating to the compensation for early discontinuation of the term of office of a Management Board member and the compensation for non-competition of a Management Board member is aligned with the Guidelines on sound remuneration policies under Directive 2013/36/EU of 2 July 2021 (EBA/GL/2021/04, hereinafter: EBA Guidelines); at the compensation for non-competition of a Management Board member the limit of its amount is more clearly defined.

The significant changes of the third version compared to the second version of the Remuneration Policy are the following:

- the provisions on the remuneration of the Supervisory Board members have been updated taking into account the resolutions passed by the General Meeting of Shareholders of NLB d.d. on 19/06/2023;
- a long-term performance bonus has been introduced, the maximum amount of which is 3 average gross monthly salaries of a Management Board member for an accrual period, i.e. financial year; the subsequent performance period, in which the fulfilment of additional performance criteria is measured, is 3 years from awarding;

- the performance criteria have been expanded accordingly due to the introduction of the long-term performance bonus;
- in accordance with the second version of the Remuneration Policy, a part of the variable part of the salary has always been deferred, while the third version of the Remuneration Policy stipulates that the variable part of the salary (short-term or long-term performance bonus) of a Management Board member for an accrual period (i.e. financial year) is not deferred, if, together with their other variable remuneration taken into account when calculating the ratio between variable and fixed remuneration for the respective accrual period (i) does not exceed EUR 50,000.00 gross; and (ii) is no greater than one third of their total remuneration for the respective accrual period;
- clarifying short-term incentive structure by providing a clear evaluation grid and weight;
- the timeline with key milestones in relation to STI and LTI in the form of an illustrative chart is added to the Policy as Appendix 1.

The significant changes of the fourth version compared to the third version of the Remuneration Policy are:

- clearer wording was introduced in the definitions and elsewhere in the Remuneration Policy;
- the definitions are used more consistently throughout the Remuneration Policy;
- the maximum total rental cost for company car provided to the Management Board member was increased to EUR 2,100.00 per month;
- in relation to guaranteed variable remuneration a stipulation was added that there will be no obligation on the Bank to pay any guaranteed variable remuneration in circumstances when the Supervisory Board has decided to not pay any Variable Remuneration to the Management Board members due to Bank capital and liquidity considerations;
- the stipulations on retention bonus have been removed;
- the properties of the Instrument that is usually used for Variable Remuneration were supplemented with yields equal to the dividends of the NLB d.d.'s share; the yields are however limited to the limits, stipulated by applicable regulations; further, any yields payable under an individual Instrument prior to the handing over of such individual Instrument to the member of the Management Board shall be treated as received and owned by the Bank and shall not be paid to the member of the Management Board (or to any later holder of the Instrument);
- more detailed indicators for measuring performance in relation to LTI were introduced;
- the possibility of awarding compensation for early termination of the term of office in case of resignation of a Management Board member has been removed.

If the basic salary

in a particular month exceeds EUR 5,750 (increased by any extra remuneration), the monthly payment in the following month shall be reduced by the basic salary in excess of this amount.

LTI – Long Term Performance Criteria

Upon separate assessment at the end of the Subsequent Performance Period the LTI is adjusted for realised performance over the same period and applying the evaluation logic as per Article 22 to the set of Long Term Performance Criteria.

The following targets in the ratios given below shall be used to determine the performance of an individual member of the Management Board during the Subsequent Performance Period (i.e. to determine the fulfilment of Long Term Performance Criteria for the payment of LTI):

Table: Targets to determine performance against Long Term Performance Criteria during the Subsequent Performance Period

Targets for LTI	CRITERIA	WEIGHT
1. relative total shareholder return (RTSR)	the performance indicator is determined based on the RTSR performance of the Bank in comparison with a peer group of comparable banks	50% (20% for CRO)
2. goals that derive from the Bank's long-term strategy and are related to the sustainability and development of the Bank and are linked to the promotion of organizational culture, employee development and customer relations	goals set by the Supervisory Board with the aim of promoting long-term sustainable development of the Bank	50% (20% for CRO)
Cost of risk (for CRO only)	average realised negative deviation of CoR relative to plan established for STI over Subsequent Performance Period	60%

LTI targets as defined in table above are explained in detail as follows:

1. relative total shareholder return (RTSR) – 50%

The target for the RTSR for the NLB d.d. share in comparison to selected comparable banks is intended to motivate share holder return out performance and align the interest of the Management Board members with interests of shareholders.

Total shareholder return (TSR) is calculated by adding a company's change in share price and total dividend per share (DPS) during the Subsequent Performance Period, and then dividing the result by the share price at the beginning of the Subsequent Performance Period.

The list of relevant peer banks comprises the following publicly listed banks which are all active in South East Europe: Unicredit (Bloomberg ticker UCG IM), OTP (OTP HB), Raiffeisen Bank International (RBI AV), Erste Group (EBS AV), Intesa Sanpaolo (ISP IM), Addiko (ADKO AV).

Total shareholder returns for the selected banks and the NLB d.d. for each of the 3-year period are then ranked. The grade per each member of the Management Board is then applied through the translational table, presented below:

NLB d.d.							
Rank	1	2	3	4	5	6	7
Grade	4	4	3	3	2	2	1

In case NLB d.d.'s TSR would be ranked first or second the member of the Management Board would be awarded grade 4. For the third and fourth ranks, awarded grade would be 3 and so forth.

If in Subsequent Performance Period (3 years) the TSR is zero or negative, the member of the Management Board forfeits his/her right to LTI, while upon objective assessment of specific circumstances (e.g. geo political crisis or pandemic), the Supervisory Board has discretion to consider relative benchmark performance as guidance for a potential partial payout.

2. goals that derive from the Bank's long-term strategy and are related to the sustainability and development of the Bank and are linked to the promotion of organizational culture, employee development and customer relations and are determined by the Supervisory Board - 50%

These goals are set by the Supervisory Board with the aim of promoting long-term stability and sustainable development of the Bank and are specifically focused on the following areas as defined in table below:

Target	Target value	Measurement	Weight
promoting the desired organizational culture	reducing the gap between the desired and actual organizational culture, which is demonstrated by measuring progress towards the desired organizational culture	carried out through organizational culture research and other relevant tools	15%
ensuring equal pay for equal work or work of equal value regardless of gender	Reducing the Gender Pay Gap according to the plan	regular annual analysis and monitoring	15%
Increasing sustainable lending	sustainable loan portfolio target as extrapolated from the "net zero" strategy	Target realization	20%

Notwithstanding the preceding provisions in regard to determine the performance of an individual member of the Management Board during the Subsequent Performance Period, the following targets in the ratios given below shall be used for assessing the performance of the Chief Risk Officer (CRO) in the Subsequent Performance Period:

1. relative total shareholder return (RTSR) as defined above and as determined by the Supervisory Board 20%;
2. cost of risk 60%;
3. goals that derive from the Bank's long-term strategy and are related to the sustainability and development of the Bank and are linked to the promotion of organizational culture, employee development and customer relations and are determined by the Supervisory Board 20%.

All relevant KPIs, targets and measures for each member of the Management Board shall be disclosed in the annual remuneration report.

A Management Board member is not entitled to STI or LTI for a specific Accrual Period if they fail to achieve their personal goals for that Accrual Period (overall assessment of personal goals is 1), regardless of whether the financial goals of the NLB Group, other financial goals and other goals in the areas that fall within the competence of that Management Board member for that Accrual Period have been achieved or not.

General rules related to the Award and payment of Variable Remuneration

Article 20

The Award of STI and LTI is regulated in detail in Articles 23, 24 and 25, the payment in Article 26 and the subsequent risk-adjustment in Article 28 of this Policy.

When assessing the performance of the members of the Management Board, the Supervisory Board also takes into account the prevailing situation and outlook for the local, regional as well as global banking sector and economies and the achievement of the goals of the members of the Management Board, taking into account their activities in pursuing the Bank's best interest.

Variable Remuneration shall not be awarded or paid out when the effect would be that the capital base of the Bank would no longer be sound. If the soundness of the capital base could be at risk due to awarding and paying the Variable Remuneration, the Bank must take the following measures within the required scope and by reasonably applying Articles 23 to 26 and 28 hereof:

- reduce the Bonus Pool for the previous Accrual Period (Business Year), even down to zero, and appropriately consider such reduction when awarding the Variable Remuneration for the previous Accrual Period (Business Year);
- use the necessary measures to adjust the Variable Remuneration, particularly the maluses for the reduction of previously awarded but not paid LTI and deferred Variable Remuneration;
- reduce the previously paid Variable Remuneration based on the agreement on the return of Variable Remuneration / stipulations on Clawback in this Policy.

12. Setting goals and monitoring the performance of Management Board members

Article 21

The financial and business plan for NLB d.d. and the NLB Group shall be adopted by the Supervisory Board and the Performance Criteria set based on the financial, strategic and business development objectives on which they are underpinned. They shall take into account objectives related to Risk Management, IT and Operations, Human Resources, Customer Satisfaction, Employee Engagement and ESG amongst others. The Performance Criteria shall be set prior to the start of the Accrual Period of the respective STI and/or LTI.

13. Scale for assessing the achievement of the goals of Management Board members

Article 22

To assess the achievement of the goals in an Accrual Period and to determine the amount of awarded STI and/or LTI of Management Board member, a 4-grade scale is used for the overall assessment for STI and/or LTI (and for each individual criterion before that), as follows:

Table 1: Scale for assessing the achievement of goals

OVERALL ASSESSMENT	Descriptive assessment	OVERALL	The amount of STI and/or LTI
4	All goals are exceeded		Above 80% to including 100% of the maximum STI and/or LTI
3	The goals are achieved		Above 60% to including 80% of the maximum STI and/or LTI
2	The goals are partly achieved		Above 40% to including 60% of the maximum STI and/or LTI
1	The goals are not achieved		The Management Board member is not entitled to STI and/or LTI

This Article applies mutatis mutandis to assessing the achievement of Long Term Performance Criteria in the Subsequent Performance Period.

14. Awarding STI and/or LTI

Article 23

The Management Board members shall be entitled to STI and/or LTI for a particular Accrual Period which shall be awarded and/or paid based on their meeting of the financial and non-financial performance criteria and other terms and conditions specified in this Policy. A presentation of the awarding and payment process is appended hereto as Appendix 1.

For the members of the Management Board, the decision whether the Short Term Performance Criteria were met shall be made by the Supervisory Board.

The Supervisory Board awards STI and/or LTI for each Accrual Period (i.e. Business Year) to the Management Board members (or decides not to award it) no later than three months after the adoption of the annual report of the NLB Group for such Accrual Period (i.e. Business Year).

In the event of exceptional economic uncertainty or other extraordinary circumstances (in the past, such uncertainty and extraordinary circumstances arose due to the spread of COVID-19) that could jeopardise the solid capital base of the Bank and/or the NLB Group in the future, the Supervisory Board may postpone the decision on awarding and/or paying the Variable Remuneration (or part thereof) to the Management Board member until such exceptional circumstances cease.

Pursuant to the first and the second paragraphs of this Article, prior to awarding STI and/or LTI to a member of the Management Board, the Supervisory Board shall make an adjustment of STI and/or LTI to performance and risks, taking into account the Short Term Performance Criteria and the adjustment criteria laid down in other Articles of this Policy as well as the criteria listed in the table below. The table below presents the cases where the Supervisory Board reduces the amount of STI and/or LTI of the Management Board member (possibly even down to zero) before the award due to prior risk adjustment. If reduction to zero is not mandatory according to the table below, the Supervisory Board shall determine the reduction of STI and/or LTI with regard to the circumstances of each case.

The amount of the Variable Remuneration to be awarded, its composition, the share of Variable Remuneration to be deferred and the period of deferral pursuant to this Remuneration Policy shall be determined by the Supervisory Board for each member of the Management Board.

15. Determining the composition of STI and LTI

Article 24

If this is permissible under regulations, STI or LTI of a member of the Management Board for an individual Accrual Period shall be awarded in cash, provided that together with their other Variable Remuneration, which is taken into account in calculating the ratio between Variable Remuneration and Fixed Remuneration for such Accrual Period it does not exceed any of the Variable Remuneration Thresholds. However, if that is not permissible under regulations, it shall be awarded by applying, *mutatis mutandis*, the second paragraph of this Article.

If STI or LTI of a member of the Management Board for an individual Accrual Period, together with their other Variable Remuneration, which is taken into account in calculating the ratio between Variable Remuneration and Fixed Remuneration for such Accrual Period, exceeds any of the Variable Remuneration Thresholds, at least 50% of it must consist of Instruments, and the member of the Management Board may only access, sell or transfer these Instruments upon the Bank's permission, which may only be issued after at least three years have passed since the acquisition. The provision of the previous sentence relates to the non-deferred and the deferred part of STI and LTI from the previous sentence.

16. Deferral of part of STI and/or LTI

Article 25

If STI or LTI of a member of the Management Board for an individual Accrual Period, together with their other Variable Remuneration, which is taken into account in calculating the ratio between Variable Remuneration and Fixed Remuneration for such Accrual Period does not exceed any of the Variable Remuneration Thresholds, no part of that STI or LTI shall be deferred, if that is permissible under regulations. However, if that is not permissible under regulations, the second paragraph of this Article shall apply *mutatis mutandis*.

If STI or LTI of a member of the Management Board for an individual Accrual Period, together with their other Variable Remuneration, which is taken into account in calculating the ratio between Variable Remuneration and Fixed Remuneration for such Accrual Period exceeds any of the Variable Remuneration Thresholds, at least 50% of that STI or LTI (or at least 60%, if together with other Variable Remuneration of this Management Board member, which is taken into account in calculating the ratio between Variable Remuneration and Fixed Remuneration for the respective Accrual Period, it exceeds 15-times the average annual gross remuneration in NLB d.d. for the Accrual Period (i.e. Business Year) prior to being awarded) shall be deferred for at least 5 years from the date when the non-deferred part of that STI or LTI is paid. The actual Deferral Period is determined each time by the Supervisory Board in accordance with this Policy. As of the date of this Policy the Deferral Period is 5 years.

17. Payment of STI and/or LTI¹⁰

Article 26

The decision whether all the conditions for the payment of STI and/or LTI have been met shall be adopted by the Supervisory Board.

The non-deferred part of STI shall be paid no later than three months after the adoption of the Annual Report of the NLB Group for the Accrual Period (i.e. Business Year) to which that STI refers, provided also that the Supervisory Board has awarded STI to the members of the Management Board for the said Accrual Period.

The non-deferred part of LTI shall be paid under the terms and conditions laid down in this Policy, no later than three months after the adoption of the Annual Report of NLB d.d. for the Business Year prior to the Business Year in which the Subsequent Performance Period expires, but not prior to the expiry of the Subsequent Performance Period. Before payment of the non-deferred part of the awarded LTI, the Supervisory Board shall assess the achievement of Long Term Performance Criteria of the Management Board member in the Subsequent Performance Period, applying mutatis mutandis Article 22 hereof, and, based on this assessment as well as other reasons for ex-post risk adjustment prior to the payment falling due as determined in Article 28 of this Policy, the Supervisory Board shall, if needed, perform an ex-post adjustment of the amount of the monetary part of LTI and/or the number or value of the Instruments that make up the LTI (possibly to zero), applying mutatis mutandis the provisions of Article 28 hereof on malus.

The deferred part of STI or LTI shall be paid in proportion. It shall be paid under the terms and conditions of this Policy, in fifths, as follows:

- the first fifth of the deferred part of STI or LTI (as applicable) shall be paid no later than three months after one year has passed from the payment of the non-deferred part of STI or LTI (as applicable), provided the following conditions have been cumulatively met before the first fifth of the deferred part of STI or LTI (as applicable) is paid: (i) one year has passed since the payment of the non-deferred part of STI or LTI (as applicable); and (ii) the annual report of the NLB Group has been adopted for the Business Year preceding the Business Year in which one year has elapsed since the payment of the non-deferred part of STI or LTI (as applicable); and (iii) the Supervisory Board decides on the payment of the part of the deferred part of STI or LTI (as applicable) referred to in this indent;
- the second fifth of the deferred part of STI or LTI (as applicable) shall be paid no later than three months after two years have passed from the payment of the non-deferred part of STI or LTI (as applicable), provided the following conditions have been cumulatively met before the second fifth of the deferred part of STI or LTI (as applicable) is paid: (i) two years have passed since the payment of the non-deferred part of STI or LTI (as applicable); and (ii) the annual report of the NLB Group has been adopted for the Business Year preceding the Business Year in which two years have elapsed since the payment of the non-deferred part of STI or LTI (as applicable); and (iii) the Supervisory Board decides on the payment of the part of the deferred part of STI or LTI (as applicable) referred to in this indent;
- the third fifth of the deferred part of STI or LTI (as applicable) shall be paid no later than three months after three years have passed from the payment of the non-deferred part of STI or LTI (as applicable), provided the following conditions have been cumulatively met before the third fifth of the deferred part of STI or LTI (as applicable) is paid: (i) three years have passed since the payment of the non-deferred part of STI or LTI (as applicable); and (ii) the annual report of the NLB Group has been adopted for the Business Year preceding the Business Year in which three years have elapsed since the payment of the non-deferred part of STI or LTI (as applicable); and (iii) the Supervisory Board decides on the payment of the part of the deferred part of STI or LTI (as applicable) referred to in this indent;

¹⁰ all awarded and paid Remuneration of Management Board members is disclosed in the remuneration report for each Business Year, including the achievement of individual KPIs

- the fourth fifth of the deferred part of STI or LTI (as applicable) shall be paid no later than three months after four years have passed from the payment of the non-deferred part of STI or LTI (as applicable), provided the following conditions have been cumulatively met before the fourth fifth of the deferred part of STI or LTI (as applicable) is paid: (i) four years have passed since the payment of the non-deferred part of STI or LTI (as applicable); and (ii) the annual report of the NLB Group has been adopted for the Business Year preceding the Business Year in which four years have elapsed since the payment of the non-deferred part of STI or LTI (as applicable); and (iii) the Supervisory Board decides on the payment of the part of the deferred part of STI or LTI (as applicable) referred to in this indent;
- the fifth fifth of the deferred part of STI or LTI (as applicable) shall be paid no later than three months after five years have passed from the payment of the non-deferred part of STI or LTI (as applicable), provided the following conditions have been cumulatively met before the fifth fifth of the deferred part of STI or LTI (as applicable) is paid: (i) five years have passed since the payment of the non-deferred part of STI or LTI (as applicable); and (ii) the annual report of the NLB Group has been adopted for the Business Year preceding the Business Year in which five years has elapsed since the payment of the non-deferred part of STI or LTI (as applicable); and (iii) the Supervisory Board decides on the payment of the part of the deferred part of STI or LTI (as applicable) referred to in this indent.

If the Supervisory Board determines a Deferral Period that is longer than 5 years, the previous paragraph applies *mutatis mutandis*.

Before paying the part of the deferred part of STI or LTI (as applicable) from an individual indent of the paragraph before last, the Supervisory Board shall re-assess the performance (in case of LTI also the performance related to Long Term Performance Criteria set for the respective LTI) and the risks assumed and, if necessary, adjust this part of the deferred part of STI or LTI (as applicable), taking into account the adjustment criteria based on Short Term Performance Criteria and/or Long Term Performance Criteria (as applicable) as well as the criteria specified in the table in Article 28 hereof. When assessing the conduct of the members of the Management Board, the Supervisory Board shall apply the principle of zero tolerance (i.e. every circumstance from the table in Article 28 hereof shall be treated in accordance with this table).

Article 27

A member of the Management Board is entitled to STI and/or LTI only in proportion to the actual duration of their employment as a member of the Management Board in the Accrual Period to which the STI or LTI (as applicable) refers. Furthermore, a member of the Management Board is entitled to LTI only in proportion to the actual time of his employment as a member of the Management Board during the Subsequent Performance Period, which relates to this LTI and, if the member of the Management Board ceases to be employed as a member of the Management Board before the end of the Subsequent Performance Period, LTI shall be reduced proportionally before payment.

Article 29

1. Compensation for early discontinuation of the term of office of a member of the Management Board

Pursuant to point 8 of the second paragraph of Article 190 of the ZBan-3, payment to an individual in connection with early termination of their employment contract shall reflect the performance of that individual during a specific period and shall not reward them for failures or possible breaches at the Bank. The employment contract of a member of the Management Board shall specify that there is no entitlement to compensation for early termination of the term of office if they are dismissed by the Supervisory Board due to (i) a severe violation of the obligations; or (ii) the inability to manage business; or (iii) due to a vote of non-confidence issued by the General Meeting of the Bank, except in the case such vote of no confidence is obviously ungrounded. Furthermore, it may not be stipulated in the contract on the employment of a member of the Management Board with the Bank that a member of the Management Board is entitled to a compensation for early termination of the term of office (i) if they are re-employed by the Bank or the NLB Group after the termination of the term of office; or (ii) in the event of a regular termination of the term of office. It may be stipulated in the contract on the employment of a member of the Management Board with the Bank that a member of the Management Board is entitled to a compensation for early termination of the term of office only if dismissed for other business or economic reasons (the proposal of the President of the Management Board for the dismissal of a member of the Management Board shall be deemed one of such other business or economic reasons - the second paragraph of Article 23 of the Bank's Articles of Association). The compensation for early termination of the term of office from the previous sentence, stipulated in the contract on the employment of a member of the Management Board with the Bank, may not exceed the amount which is calculated using the following general formula: Gross Monthly Salary of such member of the Management Board, payable on the basis of the month prior to the termination of the term of office, multiplied by 12.

Prior to the payment, the Supervisory Board may reduce (whereby it takes into account the relevant circumstances) the compensation for early discontinuation of the term of office of a member of the Management Board (even to zero) due to:

1. unsuccessful performance of the Bank, when the total amount of severance pay for employees is determined, taking into account the Bank's capital base, and if the following circumstances exist:
 - a. when the Bank is granted state aid or is subject to early intervention or resolution measures pursuant to the Resolution and Compulsory Winding-Up of Banks Act (ZRPPB-1); or
 - b. if a request has been filed for the initiation of regular insolvency proceedings of the Bank, as defined in Article 2(1)(47) of the Directive 2014/59/EU; or
 - c. where significant losses lead to the situation that the Institution no longer has a sound capital base and, following this, the business area is sold or the business activity is reduced.
2. unsuccessful performance of the Management Board member, if the following circumstances exist:
 - a. where the relevant member of the Management Board no longer meets appropriate standards of fitness and propriety; or
 - b. where the relevant Management Board member participated in or is responsible for conduct which resulted in significant losses for the Bank;
 - c. where the relevant Management Board member acts contrary to internal rules, values or procedures based on intent or gross negligence.

In the sense of point 172 b (i) and point 167 of the EBA Guidelines, the compensation for early termination of the term of office is not considered in the calculation of the ratio between the Variable Remuneration and Fixed Remuneration and it is not subject to deferral and payment in Instruments. The details of the compensation for early termination of the term of office are defined in the contract on the employment of a member of the Management Board with the Bank.

2. Compensation for the non-competition period for the members of the Management Board

If a non-competition clause is included in the contract on the employment of a Management Board member and applies after the termination of employment under that employment contract, a compensation for such competition ban may be agreed in the employment contract for the period after the termination of employment thereunder in which such ban applies. Such compensation for the non-competition period may not exceed the amount of the Gross Monthly Salary of that member of the Management Board for the month preceding termination of his/her employment under such employment contract for each month in which such ban applies. In the sense of point 172 b (ii) of the EBA Guidelines, the compensation for the non-competition period hereunder is not considered in the calculation of the ratio between the Variable Remuneration and Fixed Remuneration and it is not subject to deferral and payment in Instruments. The details of the compensation for the non-competition period hereunder are defined in the employment contract.

3. Pension benefits

The Bank shall pay for the members of the Management Board the maximum premium of collective Voluntary Supplementary Pension Insurance within the tax relief bracket as set forth in the Pension and Disability Insurance Act, which amounts to EUR 2,904.00 annually in 2023. Therefore, this type of the Management Board members' income is not considered discretionary, it is included in the routine employment package and considered Fixed Remuneration.

The Bank shall examine the most appropriate options in relation to potential provision of additional pension benefits for the members of the Management Board.

20. Restriction of personal insurance against risks

Article 30

A member of the Management Board may not use personal hedging strategies or remuneration- and liability-related insurance to undermine the risk alignment effects embedded in their Variable Remuneration. Every year, a Management Board member must also sign a written commitment in the sense of this Article separately from this Remuneration Policy and their employment contract, and hand it over to the Bank.

21. Transitional and Final Provisions

Article 31

This Remuneration Policy shall be adopted by the Supervisory Board. This Remuneration Policy shall be submitted to the General Meeting of Shareholders of NLB d.d. for a vote of approval which is of a consultative nature and this Remuneration Policy shall enter into force upon the conclusion of voting of the General Meeting of Shareholders of NLB d.d., irrespective of the outcome of the vote, and shall apply as of 01/01/2024 to the remuneration of the members of the Supervisory Board and the members of the Management Board which refers to the period as of 01/01/2024 and, in respect of such remuneration of the Supervisory Board members of NLB d.d. and the Management Board members of NLB d.d., it shall supersede the Remuneration Policy for the Members of the Supervisory Board of NLB d.d. and the Members of the Management Board of NLB d.d. (Version 3, general internal document). This Remuneration Policy shall be published in the Register of internal documents and in the application EDMS_OfficePoint.
