A conflict of interest exists when the impartial and objective performance of tasks and decision taking on part of a member of the supervisory board or management board is compromised due to personal business interests being involved, their family's interests, emotions, political or national bias or any other related interests with other natural or legal persons.

Based on the above definition of a conflict of interest, is decision-making by you influenced by any other fact not stated above?

NO

YES

If you answered YES, please explain:

A dependence of a candidate or member of the supervisory board and committee shall exist if the conflict of interest pursuant to Appendix B to the Code and in accordance with the criteria laid down in the second paragraph of Article 16 of the Articles of Association of NLB d.d. is relevant and of a permanent (and not merely temporary) nature. The criteria for assessing the relevance of a conflict of interest shall be in particular the following:

- the type and number of actions and decisions to which the conflict of interest (may) relate;
- the probability of actual realisation of the conflict of interest; and
- the effect of the conflict of interest on the ability to objectively assess the management board and the Company's operations.

The circumstances specified above (Appendix B of the Code, and the second paragraph of Article 16 of the Articles of Association of NLB d.d.) shall, in any case, result in an assumption of dependence. Such assumptions may be contested if the member of the supervisory board demonstrates that the conflict of interest is neither permanent nor relevant despite the realisation of a criterion.

Considering the statement on the potential conflicts of interest, I declare myself to be:

- it is neither permanent nor relevant,

If you answered YES, please explain:

A dependence of a candidate or member of the supervisory board and committee shall exist if the conflict of interest pursuant to Appendix B to the Code and in accordance with the criteria laid down in the second paragraph of Article 16 of the Articles of Association of NLB d.d. is relevant and of a permanent (and not merely temporary) nature. The criteria for assessing the relevance of a conflict of interest shall be in particular the following:

- the type and number of actions and decisions to which the conflict of interest (may) relate;
- the probability of actual realisation of the conflict of interest; and
- the effect of the conflict of interest on the ability to objectively assess the management board and the Company's operations.

The circumstances specified above (Appendix B of the Code, and the second paragraph of Article 16 of the Articles of Association of NLB d.d.) shall, in any case, result in an assumption of dependence. Such assumptions may be contested if the member of the supervisory board demonstrates that the conflict of interest is neither permanent nor relevant despite the realisation of a criterion.

- it is neither permanent nor relevant,
